### Novelty !

ViaSlide is a lighter holder / mini ash tray holder that slides on the sides of the cigarette pack.

The ViaSlide can be fully branded with your corporate colors and logos.

Patent pending

History : Table-top drink dispensers working by gravity (ie: a reservoir with a tap at its bottom, a cover on the reservoir and the reservoir on a base ) were not invented in the 1990s as sometimes found on the internet but were already extremely popular in the US at the early beginning of the 20<sup>th</sup> century.
